# NEW WORLD ORDER

04  
OCT / ZURICH

AN ASIA LEADERS SERIES® MEETING

**This year saw the world order thrown into disarray, while rivalry between the US and China intensified and the global health crisis continues to cause political, social and economic upheaval. With worrying signs of persistent inflation and growing geopolitical uncertainty, we bring together a small group of top leaders to share their insights.**

At this unique gathering in Switzerland, up to 100 of Europe and Asia's most influential executives gather to exchange perspectives. The two-part meeting includes a **Global Economic Outlook** with Lord Jim O'Neill and Prof. Dr. Jordi Gual, followed by a discussion on geopolitics with Sir John Scarlett, titled, **New World Order**. Sir John served as Chief of the British Intelligence Service (MI6) under Tony Blair. As usual, the meeting is unscripted and involves direct interaction with the audience.

This meeting is designed for board members of large companies. Access can be requested via our website.

*The Asia Leaders Series® is a neutral forum to facilitate open dialogue among the most influential leaders in Asia and Europe.*
